POLE

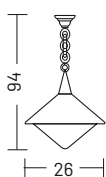

**EN** The design of the Sirio range evokes the clean, futuristic lines of a spaceship, with its tapered, conical shape seeming to project upwards, almost ready for take-off. This modern, futuristic appearance makes Sirio an ideal choice for those who wish to add a distinctive, contemporary touch to their outdoor space. This series features mounting options ranging from simple downward-facing wall sconces, suspensions, and bollards to lighting poles that can support up to three lights, offering a scalable solution for different urban or garden scenarios. The EN 47100 die-cast aluminium structure guarantees durability and resistance to the outdoor elements, while the opal polycarbonate diffuser optimises light distribution, creating a welcoming and well-lit environment.

**IT** Il design della linea Sirio evoca le linee pulite e futuristiche di una navicella spaziale, con la sua forma conica e affusolata che sembra proiettarsi verso l'alto, quasi pronta per il decollo. Questo aspetto moderno e avveniristico fa di Sirio una scelta ideale per chi desidera aggiungere un tocco distintivo e contemporaneo al proprio outdoor. Questa serie è caratterizzata da opzioni di montaggio che vanno dalle semplici applique da parete verso il basso, sospensione, bollard fino ai pali di illuminazione che possono supportare fino a tre luci, offrendo una soluzione scalabile per diversi scenari urbani o giardini. La struttura in alluminio pressofuso EN 47100 garantisce durata e resistenza agli elementi, mentre il diffusore in policarbonato opale ottimizza la distribuzione della luce, creando un ambiente accogliente e ben illuminato.
