

# Lyras 80.1

design by Landa R&D

WALL LAMP

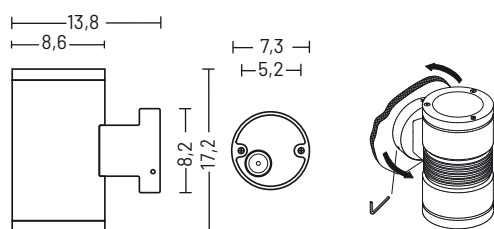

**EN** Lyras 80.1 is available with single or dual emission optics. A luminaire with an EN47100 die-cast aluminium structure, with excellent resistance to oxidation achieved through specific treatments. The mechanical couplings are protected with EPDM 70SH gaskets for a perfect seal.

The optimisations carried out on the component couplings, in fact, make it possible to achieve excellent resistance, as well as high light emission accentuated by the transparency of the mechanical couplings.

**IT** Lyras 80.1 è disponibile con ottica ad emissione singola o doppia. Un apparecchio dalla struttura in alluminio pressofuso EN47100, con ottima resistenza all'ossidazione ottenuta con specifici trattamenti. Gli accoppiamenti meccanici sono protetti con guarnizioni in EPDM 70SH, per una tenuta perfetta.

Le elevate prestazioni di Lyras 80.1 sono l'ideale per applicazioni in ambienti esterni. Le ottimizzazioni effettuate sugli accoppiamenti dei componenti, infatti, permettono di raggiungere un'ottima resistenza, oltre ad un'alta emissione luminosa accentuata dal vetro trasparente.

cod. X2

## MATERIALS

Body	Die-Cast aluminium EN47100
Diffuser	Glass transparent
Finishing	Polyester powder paint

## ELECTRIFICATION

Bulb	Base type	Voltage	Max wattage	Bulb dimension
	GU10	12 V	LED 6 W	Ø 5,1 x 6,2cm
	GU10	12 V	LED 9 W	Ø 4,8 x 6,8cm
	GU5.3	12 V	LED 8 W	Ø 5,1 x 6,2cm

## ORDER CODE

### WALL LAMP
